The amendment of Mr. Estes was then

put to a vote and adopted.

until 75 o'clock this evening. HOUSE OF REPRESENTATIVES.

EVENING SESSION.

FRIDAY, Jan. 22, 1868. Mr. Downing arose to a question of privilege. He was sorry to trouble the House so often about this matter, but he understood that a Senator had said to-day, that the Penitentiary Committee had signed their names to palpable untruths. He al-Inded to Senator Love. After consultation lost, with his (Downing's) friends, as to the proper manner as to how he should notice the charge, he had concluded to pronounce the bill passed its third reading. the statement false from his seat in the

He then characterized the report of the Senate Committee of Investigation as unfair, and in many particulars, absolutely false, &c.

Mr. Sinclair arose to a question of privilege. His attention had just been called to the remark of Mr. Welch on yesterday morning in reference to the conduct of his command during the battle of Newbern. He had explained to Mr. Bowman before Mr. Welch arose, that his (Sinclair's) remarks in regard to the excursion party were made in a jocular manner; therefore, he considered the remarks of Mr. Welch as extremely uncalled for.

Mr. S. then proceeded to give a slight sketch of his military career, and stated that if any blame was to be attached to any one for the conduct of the battle around Newbern, he would much rather it should fall upon him than any of those dead heroes, for he was living and fully able to vindicate himself. He was proud that his good fortune had led him to serve | Monday at 10 o'clock. under so brave and gallant a man as General Branch, and if any one meant to reflect upon him, (Gen. Branch,) or any of his command, as brave men and gallant soldiers, they spoke falsely.

Mr. Welch said he was a North Carolinian and was proud of the record of North Carolina soldiers during the late war. No man held the memory of Gen. Branch and Penitentiary. the gallant men of his brigade in greater those noble and brave men. What he said had been couched in plain English, and the gentleman and the public generally, could draw their own inferences. The language he used was meant solely for the gentleman who saw fit to be jocular at his expense in such a broad manner. If any A message was received from the Senate

engrossed and sent to the Senate. morning.

SENATE.

Saturday, Jan. 23, 1869. Mr. Lindsay arose to a question of privthe Senate in relation to a matter which he called on the Clerk for stationery, and was aforesaid property, &c. informed by him that he had none. He the Clerk, had transmitted an order to the requisition, and filed the order for the not entitled to necessary stationery, and is adopted. not that the proper mode to procure it ?-the Secretary of State by making this state- rules ment; he only desired the matter to be

Mr. Barrow moved that a committee Mr. Hayes desired to bring to the at-

tention of the Senate an advertisement of one John Armstrong, Book-binder, which appears in the Journals of the General Assembly at the expense of the State.

Mr. Sweet said he was glad this matter had been brought to the attention of the Senate, and hoped the committee would ing next at 8 o'clock. Lost. be appointed. It was due the Secretary of State that the investigation should be had : he believed that the Secretary had the interests of the State at heart, and was glad we had an officer who would take the requisitions when, in his judgment, the articles applied for are disposed of improperly. When this investigation is had enough to sustain the University of the a vote of yeas 67, nays 22. State for years.

Mr. Davis said he hoped the proposition would be voted down. It seemed to him ordered to be printed : would be voted down. It seemed to him this Senate had a mania for raising investigation or smelling committees. He were a proposition made to appoint and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not severally and the responsition of the country, and if the worms had not appoint a committee to printed.

Another message was received from that body announcing the passage of the bill and the received form that body announcing the passage of the bill and the receiver here seen in this court.

But this Senate had a mania for raising investable and so were seen in this court.

The land is of the crop was superity and und the section of the country and if the worms had not seed from that the completion of the crop was superity and and the provided function of the crop was superity and und the section of the country and if the worms had not applied to receive the set as 255, 110 do. at \$2.55, 110 do. at in end to them.

250 TONS SOLUBLE PACIFIC GUANO for sale at the Guano depot. Price reduced to \$65 per ton. A liberal discount will be made on lots of twenty tons and upwards by the undersigned, Agents for North W. H. MCRARY & CO. None genuine without the brand of Jno. S. Reese & Co., General Agents, Baltimore, Md.

[From the Southern Cultivator.] CHARLES A, PEABODY ON COMMER-CIAL MANURES.

HIS METHOD OF APPLICATION AND RESULTS.

Edutors Southern Cultivator: -As I am con- the week's receipts and sales foot up 2,820 bbls stantly receiving letters from all parts of the cot- as follows ton-growing States, asking my views of Guano-what kinds I prefer-how I us it, and what quantities?-I will make the Cultivator the medium of Saturday ... my answers to all. Some twenty-five years ago Monday.... 650.... 3 30@3 40..... 2 20@2 2 I began to experiment with Guano. First, I tried Peruvian. This gave good satisfaction, but was, I then thought, rather expensive. I have since tried all of the other varieties of note. Some firm on Friday last for this article, and during conclusion that the Peruvian, however costly, the day there was a brisk speculative enquiry was the cheapest in the end, as a hard-working | which resulted in an advance of one cent. This feeling continued during Saturday and Monday industrious man could manipulate it with any other substance he thought proper. I have found and the price further advanced-closing on latte The question then recurring upon the salt, plaster, flower of bones, swamp muck, &c., day at 53 cents, and all that could be reached some dullness in the market, and a decline of 16 suspended, and the bill to amend the Charwere called and resulted in the following process of manipulation much of the ammonia cent, sales being made at 52@52\ cents. On Wed escapes. From this fact I have been led to in- nesday it opened quiet at 52 cents, with sales a this figure, but closed with an advancing tendenquire whether there was not an excess of ammonia in Peruvian Guano, and whether it would not cy-the small stock in first hands being generally be more advantageous to pay for the Phosphates than to pay so much extra for the volatile ammonia. Whilst full of this idea I struck the Soluble that last year I manured one-half of my cotton | Saturday .. 51 with it, and the other half with the genuine Peru- Do. 285 vian. The same quantity of each was used per | Monday, 123 planting and culture was in all respects the same, | Tuesday ... 82 and when the crop was gathered it was impossible to tell which was the best. Now the Soluble | We'deday .260 casks deliverable 1st February at 52@521 cents; Pacific Guano alone. It cost me, at the Agent's and 55 casks deliverable after 10th February, at

Depot in Columbus, \$75 per ton. It may be well here to state the character of my land. I do not live on exactly what would be called pine barrens, but it is next to it. The and for the lower grades especially there was an active enquiry, prices up to the close of Tues-day's business having improved 10@15 cents.-culture, bring three hundred pounds of seed cotton to the acre. A field of ten acres, which I On Wednesday, however, the market opened with wished to experiment on with the Dickson Cotton, hybridizing it with my Upland Long Staple, I plowed and sub-soiled in March, leaving the surface perfectly level; the 20th of April, I laid it off quiet, though there is no quotable chan in lands about twenty five feet wide, and sowed for No. 2, and \$4 for extra No. 1; Baturday, 225 Soluble Pacific Guano broadcast, at the rate of two hundred pounds to the acre. This I turned 4,770 bbls. at \$2 for strained and No. 2; Tuesday, in this furrow I put two hundred pounds more of for strained-all of bbl. of 280 fbs. the Guano to the acre. Then I threw the furrows together into the centre, with a turn-shovel, last, and with a brisk enquiry for shipment, prices road, for rent for the year RODMAN, J., in State vs. Vinson, veriffe which left but a slight ridge, and on this ridge are 50 cents higher—the market closing firm at de novo. In Beckerdite's heirs vs. Patton, planted the seed. The Dickson variety bears \$2.85, with an upward tendency. The week's rewithstanding excessive wet weather in August, as in quantity. and the worms, which took all the late crop, I have picked over two thousand pounds of seed cotton from the half acre. There are those in

my neighborhood, who plant land as good as mine, barely adequate for present wants. There is a but without Guano, that will scarcely realize a fair enquiry, and a few droves of prime quality a bale from ten acres this year. And now a word to the purchaser. If you would get the Soluble Pacific Guano genuine, purchase | 1 15. it only of the authorized agents of the Company. I have tried the Peruvian and Pacific on my garden crops, but with no good results. Peruvian as in quantity. Guano seems to be emphatically the food for the cotton fruit-other fertilizers may make more weed; but in the purchase of Peruvian Guano, we are paying for a volatile ammonia, much of which is bound to escape without benefit to crops. Will it not be to the planter's interest to take that Guano which is richer in phosphates, and yet an abundance of ammonia for all practical purposes? The Soluble Pacific Guano I have found from county claims was taken up. After being beloved consort of Col. E. B. Withers, and daugh- sound practical tests, to be equal to the Peruvian to plant cotton without Guano
